- Living, working and deciding as a team.
- Teamwork, autonomy, adaptation, improvisation, constancy, client relation/sales.

Personal projects

Link to my Github: https://github.com/Patern14

Pokedex
- Made with React JS and react-router-dom.
- Retrieve data from pokeAPI.
- Display the first 20 pokemons, load the following 20, display a random pokemon.
- Show details of the selected pokemon including their types and evolutions.

Flexbox reminder
- DOM manipulation with Javascript.
- An interactive reminder for Flexbox properties where you can see the result of the different options for the Container and the Content.

Sm4rty
- A reproduction of the Smarty website homepage.
- Media queries for desktop and mobile versions.

Connect4
- A Javascript version of the four in a row game.
- Victory conditions, reset button.

Interests

Sciences, technologies, UI/UX, Boardgames, Woodworking, Ecology, Sports, Japan, USA, History.
