- Responsible for client relation/sales with professionals and customers.
- Skills developed: teamwork, autonomy, adaptation, improvisation, constancy.

Personal projects

Link to my Github: https://github.com/Patern14

Pokedex
- Created with React JS and react-router-dom.
- Retrieves data from pokeAPI.
- Displays the first 20 Pokemons, load the following 20, displays a random Pokemon.
- Shows details of the selected Pokemon including their types and evolutions.

Flexbox reminder
- DOM manipulation with Javascript.
- An interactive reminder for Flexbox properties where the results of the different options for the Container and the Content are displayed.

Sm4rty
- Reproduced the Smarty website homepage.
- Media queries for desktop and mobile versions.

Connect4
- A Javascript version of the four in a row game.
- Victory conditions, reset button.

Interests

Sciences, technologies, UI/UX, Boardgames, Woodworking, Ecology, Sports, Japan, USA, History.
